HOOD'S Sarsaparilla

It has won its hold upon the hearts of the people by its what Hood's Sarsaparilla does that tells the story:-

Hood's Cures

Even when all other preparations and prescriptions fail. "Formerly every year I had an erup-tion on my body, and a kind of billing pain besides. I have had it now for four years every summer, but sines I began taking Mood's Caraparilla I have had no trace of it. I bave taken eren bottles." Fran Posran, 2101 Hart: St., Denver, Colorado.

A QUEER ANIMAL

Australia certainly holds the palm better that is any corresponding time butter to churn from the milk of her It was only recently that it was proved butter that is any corresponding time butterflies; and I'd rise at morn with beyond a doubt that this curious animal lays eggs like a bird, though this had long been reported by travelers. Now comes, the news that it has a sting on its hind leg, capable of killing by its poissmous effects. We quote from The pass, and watch while the farmer turns

"For a long time it was considered to be quite harmless and destitute of any weapon of offense, although the hind legs of the males were armed with a powerful spur, apparently connected with a gland. Then the opinion was advanced that this might be a weapon allied to the poisonous armory of snakes, scorplons and bees, all of which possess a sort of hypodermic poison syringe. Though one set of observers asserted that this was the case, another set denied it, and so Dr. Struct determined, if now human beings, but four in dogs."-Lit-erary Digest.

Appearances. "My dear baron, what are you doing? Smoking two cigars at one and the same

"Well, you see, my dear fellow, in this beastly hole you can't get any six-penny eigars such as I am in the habit of smoking, and so I have to make shift with a couple of threepenny ones."-

WOMEN'S FACES

— like flowers, fade and wither with time; the bleam of the rose is only known to the healthy woman's cheeks. The nervous and strain caused by the alments and pains peculiar to the sex, and the labor and worry of rearing a family, can often be traced by the lines in the woman's face, Dull eyes, the sallow or wrinkled face and those "Restings of weakness" have their rise in the derangements and irregularities peculiar to women. The functional derangements, painful disorders, and chronic weaknesses of women, can be cured with Dr. Pierce's Pavorite Prescription. For the young girl just entering womanhood, for the mother and those about to become prothers, and later in "the change of life," the "Prescription" is just what they need; it aids nature in preparing the system for the change. It's a modicine prescribed for thirty years, in the diseases of women, by Dr. R. V. Pierce, chief consulting physician to the Invalida' Hotel and Sargical Institute, at Buffalo, N. V. Dr. Pierce's Favorite Prescription will cure the chronic inflammation of the lining membranes which came such calbanting drains upon the system. It curve pervous prostration, sleepleasness, faintness, nervous debility and all disorders arising from derangement of the female organs and functions.

morely to show his witchlike skill with those weapons, stood across the street, fully 100 feet away, and with a 45 caliber Colt's pist. I in each hand put all the 12 bullets into the center of this "O." He fired the pistols simultaneously, and the 12 shots made only six reports. The town was smaller at that time and in the interest of science didn's mind a little racket now and then. So Wild Bill's exhibition of crack pistol shooting excited nothing but compliment. Indeed Speers, chief of police then, as well as now, was one of the most interested lookers on, and emphatically indersed the exhibition as one of the most skillful tricks with pistols it had ever been his luck to see.—Washinghad ever been his luck to see. - Washing-

Directions For Sterilising Milk.

Provide six or eight half pint bottles, according to the number of times the child is fed during the 24 hours. Put the proper amount of food for one feeding in each bottle and use a tuft of cotton batting as a stopper. Have a sancepan that the bottles can stand in conveniently. Invert a perforated tin pie plate in the bottlen and put in enough water to come above the milk in the bottles. Stand the bottles on it; when the water boils draw the sancepan to a cooler part of the stove, where the water will remain near the beiling point but not actually boiling. Cover the sancapan and let the bottles remain in it one home. Fut them in the icebex or a cool place in winter.—Ladies' Home Journal. Directions For Sterilizing Milk.

INFLUENCE OF SCIENCE.

The Characteristic of Savanta Is Their Unfailing Optimism.

The best that we gain from the pursuit of research is, Professor C. S. Minot writes in The Popular Science Monthly, our characteristic optimism. We are engaged in achieving results, and results of the most permanent and enduring quality. A business man may achieve a fortune, but time will dissipate it. A statesman may be the sayion achieve a fortune, but time will dissipate it. A statesman may be the savior of a nation, but how long do nations live? Knowledge has no country, belongs to no class, but is the might of mankind, and it is mightier for what each of us has done. We have brought our stones, and they are built into the edifice and into its grandent. My stone is a small one. It will certainly be forgotten that it is mine; nevertheless it will remain in place.

will remain in place.

How different is the pessimism toward which literary men are seen to tend! Harvard university lost James Russell Lowell in 1891 and Asa Gray in 1888. The letters of both of these eminent men have been published. Lowell's letters and also and also seen to the contract men have been published. ell's lotters grow and and discouraged, and he gives way more and more to the pessimistic spirit. Gray is optimistic steadily and to the end. The difference was partly due to natural temperament, but chiefly, I think, to the influence of their respective professions. The subject materia: of the literary man is familiar human nature and familiar human surroundings; and his task is to express the thoughts and dreams which these suggest. He must compete with the whole past, with all the genius that has been. There is nothing new under the sun, he exclaims. But to us it is a proverb contradicted by our daily experience. ell's letters grow sad and discourage

Artificially Red Oranges. Blood oranges are now prepared artificially. They are even richer in flavor than the regulation red orange of nature. An ordinary crange is punctured, and a small quantity of California claret is injected by means of a powerful syringe. The wine is drawn up into the pulp of the fruit by means of the expillary attraction and gives the orange the deep red so admired by cosmoisseurs.—New York Heraid.
